

# JURY WILL DECIDE THE QUESTION OF THAW'S SANITY

New York, April 23.—The question of the sanity of Harry K. Thaw will be determined by a jury. Supreme Court Justice Hendrick, in a decision handed down today granted the application for a trial made by Thaw's attorneys on a writ of habeas corpus. Judge Hendrick set the date of the trial for May 17.

Thaw was in court when Justice Hendrick announced opinion. His face at once lighted up with pleasure. His attorneys, friends and others in the court room rushed to congratulate him and he was kept busy for nearly half an hour shaking hands before he was taken back to the Tombs. "It will be good news to my mother," he told newspaper men. "That's all I want to say for publication." The moot question which Justice Hendrick had to decide was whether the court had power to grant a jury trial. He held, after a study of the authorities, that he did have such power and has decided to exercise it. He pointed out in the decision that the jury was called in "To aid the court by their advice," and that the finding of the jury would not be binding, if the court was satisfied that it was not in accordance with the evidence and with justice.

The court, he said, could disregard the jury's verdict and render his own decision.

### BARNES REGARDED AS SORT OF DR. JEKYLL AND MR. HYDE BY T. R.

Syracuse, N. Y., April 23.—During the second day of his cross examination in the supreme court here today, Theodore Roosevelt said that he had regarded Wm. Barnes as a "sort of a Dr. Jekyll and Mr. Hyde," who like other politicians, had his good sides and his bad sides.

The colonel said he did not, as suggested by Wm. Ivis, his cross-examiner, try to sever the ligaments between "these 'Siamese twins of politics.'" Quite on the contrary he declared he endeavored to have the "Dr. Jekyll" in them absorb the "Mr. Hyde."

It was the colonel's fourth day on the stand and he seemed to be as fresh as he was on the first day. More letters tending to show the friendly relations between himself and Mr. Barnes were introduced into the record. The colonel admitted that he had complied with many of the suggestions made to him by Mr. Barnes in regard to the filling of offices in the state government during the two years he was governor.

When court was opened Col. Roosevelt resumed his seat in the witness chair immediately. "Mr. Roosevelt," began Mr. Ivis, "attention was called to the annual message in which you mentioned the establishment of a printing house. Did you ever do anything officially in regard to that?"

"Officially, no."

"During your two years as governor, the usual appropriation bills came to you, did they not?"

"They did."

"Who was chairman of the senate finance committee?"

"Was it Mr. Higgins?"

"You ask me, so I'll tell you, it was."

Who was chairman of the assembly?

FIGURES IN BARNES-ROOSEVELT LIBEL SUIT

This picture, taken in the court house at Syracuse, shows Colonel Roosevelt testifying in the \$50,000 libel trial. While on the stand the colonel gave his life history and told the jury why he called William Barnes a political boss.

YPRES AGAIN TARGET OF HEAVY ARTILLERY; FIGHT FOR HILL 60

London, April 23.—The British forces have shown no disposition under the repeated rushes of the Germans to relax their grip on Hill No. 60, near Ypres and the fighting in this locality today shows signs of developing along the whole front with increasing intensity, even rivaling the attempts of the Germans to break through the British lines last fall.

The city of Ypres, whose historic structures were shattered by German projectiles last October, again is the target of heavy shells. Huge seventeen inch missiles are now being used and unless the civilian population has fled or is taking to its cellars, the losses among the people must be heavy.

There has been a lull in the German center attacks, according to the British official report given out this morning but it is assumed that both sides are being

DAMAGE TO PROPERTY IS HEAVY

Dallas, Tex., April 23.—Twenty persons, perhaps more, it was estimated today, met death late yesterday and last night in a rain, electrical and wind storm general over nearly all Texas and Eastern Oklahoma.

Residual floods have interrupted communication by rail and wire. In some parts of the storm area the wind and rain continued today. Austin felt the brunt of the storm, which in places reached cyclonic proportion. The death toll at the capital is expected to be at least fifteen.

Shawnee, Okla., April 23.—Seven persons were injured, three dangerous in a tornado which last night destroyed the house of S. L. Whitley, a farmer, near here.

Telephone and telegraph wires are down.

Rescue squads were busy all night taking endangered persons to higher ground, while the rain continued to fall in torrents.

In the Thrall oil field near Taylor, Texas, tanks containing 150,000 barrels of oil were set on fire by lightning. The loss, it is said, would be \$75,000. Lightning started a fire in an old warehouse, causing a loss of \$120,000.

In Oklahoma the Canadian river at Chickasha has cut a new channel two miles from its old bed and ten passenger trains were stranded there. The Santa Fe railroad has lost one thousand feet of track at Purcell and bridges are threatened at several points on that road by swollen streams.

Bursting of a gas main at Abilene, Texas, caused by water undermining the line, has left Dallas and Fort Worth without natural gas. It was not known today when the break would be repaired.

### GOV. WILLIS DEFENDS THE ADMINISTRATION

Canton, April 23.—Governor Frank B. Willis here today for the conference of the Ohio coal operators and miners took opportunity to reply to the attack made on his administration by Prosecuting Attorney Cyrus Locher, of Cleveland, at the banquet given for Senator Allen Pomerene here Wednesday night.

Willis denied Locher's charge that no constructive legislation had passed the general assembly at Columbus; pointing to the tax measure which passed this week, claiming it decentralized the taxation system of the state by repeal-

These snapshots of William F. Barnes and his chief counsel, William M. Ivis, were taken in Syracuse shortly after their arrival in that city to prosecute the \$50,000 libel suit against Colonel Roosevelt. Ivis is one of the leading lawyers of New York city.

### CZAR NICHOLAS VISITS GRAND DUKE AT FRONT

London, April 23.—Emperor Nicholas arrived today at Lemburg, the Galician fortress which the Russians wrested from Austria early in the war. A Reuter's dispatch from Petrograd says the Emperor was met at the railroad station by Grand Duke Nicholas, the Russian commander-in-chief, with whom he held a conference concerning the military operations at the Carpathian front.

The foregoing gives the first definite news of the whereabouts of Grand Duke Nicholas since the report of last week that he had been shot by General Baron Sievers, commander of the defeated Russian tenth army.

### Where Is England's War Fleet?

Berlin, April 23.—(Via London)—The German admiralty today gave out a statement reading as follows: "The German high sea fleet has recently cruised repeatedly in the North Sea, advancing into English waters without meeting the sea forces of Great Britain."

### RETURN INDICTMENTS IN STEUBENVILLE SCANDAL

Steubenville, Ohio, April 23.—Mayor George W. McLeish, Safety Director H. W. Patterson and James and Clay McLeish, minors, sons of the mayor, are among those indicted by the grand jury here yesterday in the probe of alleged city graft, conducted by Assistant Attorney General H. S. Ballard. The names of these defendants were made public today.

Mayor McLeish was held on 40 counts. One charge, embezzlement of \$60 of funds of the city. The other 29 charge extortion by imposing excessive costs on police court prisoners.

Patterson is indicted on twenty counts. Three charged obtaining money under false pretense and securing payment of false vouchers, two charge forgery, one charges uttering a forged contract, and 14 charge interest in city contracts while a municipal officer.

The McLeish boys are held on three counts each, charging larceny of city property worth \$200.

There were 119 indictments altogether and 66 remain secret. None of these whose names were made public today have as yet been arrested.

### NEUTRALITY DEFINED

Philadelphia, Pa., April 23.—Neutrality was defined as something that was not at all morally exalted, but exceedingly practical, by Frederic R. Condict, of New York, an authority of international law, who delivered the annual address to members of the law academy of Philadelphia here last night.

### THREATENED

Pittsburgh, Pa., April 23.—A strike which would tie up building operations throughout the Pittsburgh district is threatened here as a result of a decision reached at a meeting of contractors last night to refuse demands of the brick layers' union for an increase in wages of from 70 to 75 cents an hour after May 1.

### ENGLISH TRAWLER IS SUNK

Grimsby, England, April 23.—The Grimsby trawler St. Lawrence was torpedoed and sunk in the North Sea yesterday by a German submarine. Two members of the crew were killed. Seven survivors were brought here today by the trawler Queenstown, whose skipper reports that the submarine fired on his vessel while engaged in rescuing the crew of the St. Lawrence.

### COAL AWAITS RIVER RISE

Pittsburgh, Pa., April 23.—With the stages of the local rivers the lowest in fifty years, 4,000,000 bushels of coal are being held here awaiting a rise which will permit shipment south.

### COUNTERFEITING TRICK AMAZES SERVICE MEN

Washington, April 23.—Even the callous staff of the secret service headquarters, long familiar with all the tricks of counterfeiting trade, were shocked into a show of surprise yesterday when Acting Chief Moran strolled into the office with what proved to be two four foot long counterfeit bills tucked under one arm. The counterfeits are duplications of the faces of a five and a ten dollar United States note with the numerals, portraits and lettering woven into the texture of an ordinary bank towel.

The workmanship was extraordinary good in the judgment of Mr. Moran and its precision made him believe the work was done by machine.

### Chicago Millionaire Heads Medical Trust

New York, April 23.—Methods closed to the authorities by Dr. Frank T. Brough, one of the physicians arrested, according to a statement accredited today to the office of Mrs. Marion K. Clark, an investigator for the state labor department.

It was reported that the real head of the string of medical institutions raided here Wednesday is a Chicago millionaire who employs managers for the branch institutions.

## A Big Tree Falls Near Draper Home

Residents on Sixth street between Chillicothe and Washington streets were startled about three o'clock this afternoon by a resounding crash when the large "heavenly" tree in front of the residence of Edgar P. Draper fell to the ground without a moment's warning. The huge trunk fell across the street, completely blocking it.

Not a breath of air was stirring at the time, and the elements contributed in no way to its fall. The roots of the tree simply rotted away, and resembled so much dust. Old time residents say that it is the first time in years that such a thing has occurred in this city.

Fortunately, no one was in the path of the tree's fall at the time although an automobile had just passed over the spot where the trunk of the tree landed. Had the tree fallen in an opposite direction, considerable damage would have been done the beautiful Draper home.

## STOMACH TROUBLES DUE TO ACIDITY

So Says Eminent Specialist

So-called stomach troubles, such as indigestion, wind, and stomach-ache are in reality due to the acid condition of the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is entirely natural, but may involve most serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it harmless, is a dangerous and unnecessary. But prevention of the acid by the use of a project, such as the use of a project, which can be obtained from any drug store, and thus enable the stomach to do its work properly without being hindered by poisonous gas and dangerous acids.

## GOOSE CREEK

Mr. and Mrs. Joe Hammond, parents of Mrs. Floyd Spears, have returned to the city after having been called home by her death which occurred last Saturday morning at 7 o'clock, following an illness covering a period of several months, attributed to tuberculosis.

In addition to her parents and husband Mrs. Spears is survived by two sisters, Mrs. L. G. Purtee, of Oklahoma City, and Miss Ruth Hammond, and the following six children: Murle, Harry, William, Fred, Ralph and Carver.

The funeral was held from the home at two o'clock Monday afternoon, with Rev. Willis, of Powellville, in charge and interment in Wheelersburg cemetery. Kind and affectionate, devoted to relatives and friends, genial and companionable at all times, her death at the age of 37, is pathetically sad. The sorrow of Mrs. Spears' relatives and friends is tempered by her many generous deeds of kindness. Many and beautiful were the floral pieces which attest the esteem and respect in which this good woman was held.

Mr. Charles Seyler arrived from Ashland, Ky., last Saturday for a sojourn with relatives and friends in our midst.

Mrs. George Leffler, of the Peerless City, is spending a few days with relatives at Wheelersburg and Dagwood Ridge.

Miss Minnie Kruger, of Pine Grove, is here on a two weeks' visit before going to Portsmouth, where she expects to find employment.

The familiar face of Joe Simon, well known and popular young man of Turkey Foot, was seen in this section recently.

Mr. and Mrs. Frank Thielken and little son, Paul, of Eighteenth street, city, after a brief visit with Jack Run relatives, returned home the first part of the week.

The commencement exercises for the graduating class of the Powellville High School will be held on next Wednesday evening at Franklin Furnace school building. Rev. Dunning will deliver the baccalaureate sermon on next Sunday afternoon at the Powellville Lutheran church.

## To Increase Power Of German Wireless

New York, April 23—For the purpose of ensuring wireless communication between Germany and the United States under all kinds of static conditions, the power of the Telefunken wireless station at Sayville, L. I., it was learned today, has been almost trebled. Through this plant the German government transmits most of its communications to the

United States government and the German Embassy communicates with Berlin. Many of the official war bulletins from the German capital are received at the Sayville station.

After the outbreak of the war and the cutting of the German cables by the British navy, Germany found herself cut off from direct telegraphic communication with America except by wireless.

Adverse atmospheric conditions, it was said today, interfered to some extent last summer with the transmission of wireless messages across the Atlantic. The more powerful plant is intended to overcome any such handicap and enable constant communication with Nauen, four thousand miles distant.

Corner on Calendars. Among the Greeks and Romans altman or calendars were not written for the general public, but were preserved as part of the esoteric learning of the priests, whom the people had to consult, not only for the dates of the festivals, but for the proper time when various legal proceedings might be instituted. History does not relate how the society women of ancient times managed to get through a season without an engagement calendar.

Keep Up the Effort. Fight like a good soldier; and if thou sometimes fall through frailty, take again greater strength than before, trusting in my more abundant grace.—Thomas A. Kempis.

## Honest Optical Service

The Golden Rule of life should be the Golden Rule of business. The optical business is a rich field for those who prey upon the weaknesses of others. The petty dishonesties, the sham cures, the exorbitant prices of conscienceless opticians are well-known facts. But why do people recommend Carr's optical service? Because deception has never been practiced in this store. It is not enough to say that the Carr Optical Department is conducted by an expert—it is not enough to speak of the efficiency of our prescriptions—the real emphasis should be laid upon the absolute dependability of all our dealings. If you do not need glasses they will not be prescribed. If you do need them, rest assured that they will be the just the kind your case calls for. No charge for examination.

Racket or Raquette. When you use the racket in playing tennis you do not stop to think what it means and how difficult it has been to trace the word. Some thought that it was so called because of the noise made by the ball striking it, but this is impossible. The real origin is from the French raquette, the palm of the hand, which was originally used in the game before the racket was invented. It's all very simple when you know.

Not Entirely Heartbroken. A father who intended to make a great professional man of his son usually manages to conceal his disappointment when the boy signs up for a neat salary as a ball player.

The Tightwad's Advantage. Of course the tightwad is awfully uncomfortable, but as a general thing he does not have to embarrass himself by asking his acquaintances to go on his note at the bank.—Galveston News.

## The Markets

## NEW YORK STOCK

New York, April 23.—Standard stocks moved within narrow limits today while specialties showed conflicting gains and losses. Reactionary tendencies were again dominant at the opening of the market, leading stocks as well as specialties moving contrarily. U. S. Steel, Amalgamated Copper and Smelting were fractionally lower, while Reading and some shares of less prominence made slight gains. American Tobacco made an abrupt decline of eight points and Missouri, Kansas and Texas preferred lost four points. Trading became more active with increasing irregularity before the end of the half hour with extensive dealings in local fractions, which rose and fell feverishly.

Trading during the morning fell somewhat under yesterday's moderate total with further selling of steel, Reading and other favorites. Such offerings were well taken, however, inasmuch as prices recovered. Speculation extended more generally to the low priced coppers, with renewed activity in local fractions at higher quotations. There was some confusion of prices in the specialties, but some of the recently active "wax" shares like Westinghouse, American Locomotive, Pressed Steel car and Bethlehem Steel were again taken up at substantial advances. Bonds were steady, despite indications of further foreign selling.

Late dealings reflected some confusion with comparative heaviness in St. Paul and New York Central. The closing was irregular.

CHICAGO GRAIN AND PROVISIONS  
Chicago, April 23.—Wheat prices advanced quickly today owing to Liverpool reports that supplies there were not meeting requirements. Argentine offerings were said to be very light with prices for India cargoes rising, and already as high as \$2.01 a bushel. According to a leading authority the European country had yet purchased a normal quota.

After opening ½ to 2 cents up, the market here scored further gains, reacted sharply and then resumed a movement up-grade. Corn showed itself unresponsive to the strength of wheat. Business appeared to be almost entirely among floor traders. The opening, which ranged ¼ to ¾ higher was followed by a sag and then by a narrow change close to last night's level.

Rains continued to have a bearish effect on oats. Selling pressure, though, was not heavy. Provisions held steady with hogs. Packers seemed to be giving the market a little support. Attempts by exporters to ab-

## LEARN OF ANOTHER PLOT TO LIBERATE THAW FROM TOMBS

New York, April 23—Sheriff Griffenlages said today that he had taken every precaution to frustrate the alleged plot to spirit Harry K. Thaw out of New York state, which came to light last night in Norfolk, Virginia.

Without accusing Thaw or any of his intimates of participation in the plot, the local authorities said they had reason to believe that plans had been laid to take Thaw from his guard on the way to court here, place him in an automobile and hurry him to the first train for Virginia.

According to the sheriff, the plan was revealed by the following letter written to Assistant District

Attorney F. J. Grobel, of New York by Louis Weinrop, of Norfolk:

"A man comes over to me and he said I should go New York when Harry Thaw's case comes up on the 22nd of April and he will give me two more men and they will have an automobile to take Harry Thaw away when he comes to court, to another state, and he offered me one thousand dollars and all expenses and a security for any accident that happens me in any responsible place, but I refused him the job because he wanted me to go at once with him to New York, but I wanted him to give me \$50 before I go with him."

"I think not."

"Who was the Democratic party leader then?"

"Up state it was David B. Hill, in New York it was Richard Croker, with the latter growing in power constantly."

"Here is your autobiography; here you said that during the campaign the issue was between yourself and Croker. Is that right?"

"Yes."

"Did you mention Mr. Hill?"

"Yes. You look at page —"

"We'll go into that later."

"On page 301," continued the witness, "I mention David B. Hill."

"Did Mr. Hill go to the United States senate?"

"He did."

"Do you remember when he retired?"

"I think it was in 1908."

"Do you know he got out of politics in this state after he retired from the senate?"

"No. My understanding is directly the contrary."

"In chapter eight did you refer to Mr. Barnes?"

"No. He was not then of the same importance as Mr. Platt and Mr. Odell. However, when I published my autobiography in 1913, I thought the name of Mr. Barnes as I did when I wrote the article complained of here."

"Why did you do that?"

"I did not want to make any malicious attack on Mr. Barnes. I refused to attack any man in my autobiography that I could help. In my statement I wanted to appeal to the voters of New York state."

"Since this action was begun have you referred to your autobiography?"

"I think I have."

"Do you know your language on the stand and in your autobiography has at times been identical?"

"I don't know. I do not think that is the case. It might be."

"In your statement you refer to invisible government. Now this is from your autobiography."

"Mr. Ivins read an excerpt that had to do with invisible government and publicity for campaign contributions."

"There went on: 'Was there at that time a law about publishing campaign contributions?'"

"I don't think so."

"Did you ever mention invisible government before your return from Africa?"

"I didn't use those words. But I referred to the thing in a message I sent to congress in 1908."

"Did Perry Belmont start the movement to require publication of campaign contributions?"

"He might have, I urged such a measure in congress."

"Had you until that time ever called the attention of the voters to the dangers of invisible government and the necessity of publishing campaign expenses?"

"Ivins Tells Colonel."

"To Get Down To Acés"

"I think so."

"I don't care what you think. Did you or did you not?"

"I did."

"Mr. Ivins asked Colonel Roosevelt to produce copies of his message to congress. The colonel said he would do so later in the day."

"Did you officially mention campaign expenses and publicity before 1908?"

"I'll have to refresh my memory on that from my messages."

"When did Charles F. Murphy become the nominal leader of the Democratic party in New York?"

"He was not the nominal leader. He became the actual leader after Mr. Croker went to Europe, first in New York and then throughout the state. He became dominant."

"Isn't it a fact he first showed his control at the Buffalo convention in 1906?"

"That's my memory. I can't be sure of it."

"Who succeeded Mr. Croker in the leadership of Tammany Hall?"

"I told you, Mr. Murphy."

"Didn't Know of Tammany Hall Triumvirate"

"Don't you know there was a triumvirate in control of Tammany Hall?"

"I don't know about that. I know there was a fight in which several persons including Mr. 'Pinky' Wm. J. Connors, of Buffalo, were concerned. I don't know which side he was on. I just heard of it."

"Well now, while you were governor there was invisible government you say. Why didn't you make an attack then similar to the one you made on Mr. Barnes?"

"If they had blocked the legislation I wanted I would have."

"Mr. Ivins then requested the court to instruct the witness to answer categorically and not go beyond and make statements."

"If the rules of law are observed and this witness is treated as any other witness" began Mr. Ivins.

"Ivins Is Rebuked"

By Justice Andrews

Justice Andrews rapped with his gavel and said: "Mr. Ivins, this witness is treated the same as other witnesses. I won't permit any such language here."

"I apologize," said Mr. Ivins and continued his cross examination.

"Did you ever give any publicity to the fact that you, Mr. Platt and Mr. Odell conferred over a successor for Louis Paynter?"

"I did not. The newspapers did."

"Did you confer with Platt about appointing Mr. Hendricks as commissioner of public works?"

"No not particularly. Senator Platt himself offered Mr. Hendricks the place. He (Platt) showed a telegram of acceptance from Mr. Hendricks."

"As the witness told this he laughed and the spectators joined in."

"Did you use the words invisible government in 1899 or 1900?"

"No."

"Did you ever discuss invisible government with Mr. Barnes in Albany?"

"I did not discuss the specific phrase. I did discuss my official

duty and contributions to the campaign funds by big business interests."

Mr. Ivins picked up the autobiography. He read a sentence about Mr. Platt's most efficient lieutenants being men of the best character and the highest standing in the community.

"Did you include Mr. Barnes above the average of the run of politicians? I believed he might become a most useful citizen."

"Did you discuss his moral standards with him?"

"I did. I expressed my hopes to him."

"So while you were in Albany you were acting as a political mentor in order to make him a citizen?"

"I tried to get every man to act right. Most politicians had two natures, however. I regarded Mr. Barnes as a Dr. Jekyll and a Mr. Hyde. He had two sides, a good and a bad one as other politicians had."

## FOREST FIRES STILL RAGING IN PENNA.

Kane, Pa., April 23—Little headway was made today toward checking the forest fires raging in this section. High winds are fanning the flames which have covered many acres in the last twenty-four hours. In Hickory township, Forest county, much valuable timber and two large oil tanks and a number of oil well rigs were destroyed. At one time the flames threatened the buildings of the Forest county poor farm, but they were saved by the

fire-fighters. The village of Rathbun, Elk county, was surrounded by the flames, but only one dwelling was destroyed, the work crew of the Pennsylvania railroad saving the village from destruction.

## THAT DOLLAR BILL STILL CIRCULATING IN CITY

Convincing proof that the dollar spent at home keeps circulating was demonstrated Thursday afternoon and Friday, when the folder, containing a crisp new dollar bill found its way into almost a dozen different hands in twenty-four hours. Before

this is read, it is quite probable that the bill will have exchanged hands several times more, as in the case is inserted a little note asking the owner to pass it on to some one else in exchange for something purchased or some labor performed. The

Times will keep track of the dollar to show how many people a 'dollar' spent at home benefits. The dollar bill started on its interesting journey Monday afternoon at the Pure Drug company's store in the Terley building, passing from

there to John Schaefer, of Third street for groceries, who in turn, paid it to F. M. Fride, the Third street tailor, for clothes pressing. That was the last account of the bill in Thursday's Times.

Early Thursday evening the bill came into the possession of the Brandau Book and Stationery company of Chillicothe street, where it was paid on a purchase by Mr. Fride. Mr. Schloss, the manager, kept it in his possession all night, but his wife started it circulating bright and early Friday morning

when she tendered it to the clerk at I. H. Stewart's Cut Rate drug store on Gallia street in payment for a toilet article. Mr. Stewart purchased some cigars at Win Wye's drug store on Chillicothe street Friday afternoon, giving the bill in payment and receiving the change. Mr. Wye used it to help pay a bill to John Wilhelm, advertising manager of the Star, and he left it at the jewelry store of W. L. Wilhelm on Chillicothe street in payment on a purchase.

Mr. Wilhelm took the bill on its longest journey thus far when he stopped in his automobile long enough to make a purchase at Flood & Blake's drug store in the East End, where he tendered the bill in payment.

## MAY MOVE BIG SHOE PLANT TO THIS CITY

There is a possibility of one of Cincinnati's best known shoe manufacturing firms locating in Portsmouth, according to gossip in Cincinnati shoe circles, brought home by a prominent Portsmouth retailer. It is known that a Cincinnati manufacturer was here a few days ago and looked over the buildings on Gallia street formerly occupied by the Excelsior Shoe Company and owned by The Selby Shoe Company.

The buildings were closely inspected and it was stated that the Gallia street section, known as the "L" building, met with the approval of the Cincinnati manufacturer. While nothing of a definite nature has so far developed from the manufacturer's visit to Portsmouth and his inspection of the Selby buildings, it is thought something will be the man in question, who is at the head of the Queen City firm, was not only favorable impressed with the building he looked at, but was pleased with the shipping facilities of the city.

For some time there has been talk of a Cincinnati firm moving its shoe plant to Portsmouth, but no importance was attached to the rumor until the manufacturer in question arrived here and personally inspected the Selby buildings. The firm makes a high grade of shoes and its plant would make a valuable acquisition to Portsmouth's chain of industries.

Mrs. Jerry Fucci, of 1008 Ninth street, who was seriously ill Wednesday, is improving.

### CAREFUL DOCTOR

Prescribed Change of Food Instead of Drugs

It takes considerable courage for a doctor to deliberately prescribe only food for a despairing patient, instead of resorting to the usual list of medicines.

Some truly scientific physicians recognize and treat conditions as they are and should be treated. Here is an instance:

"Four years ago I was taken with severe gastritis and nothing would stay on my stomach, so that I was on the verge of starvation."

"I heard of a doctor who had a summer cottage near me—a specialist from N. Y., and, as a last hope, sent for him."

"After he examined me carefully he advised me to try a small quantity of Grape-Nuts at first, then as my stomach became stronger to eat more."

"I kept at it and gradually began to have color in my face, memory became clear, where before everything seemed a blank. My limbs got stronger and I could walk. So I steadily recovered."

"Now after a year on Grape-Nuts I weigh 153 lbs. My people were surprised at the way I grew fleshy and strong on this food."

Now given by Postum Co., Battle Creek, Mich. Read, "The Road to Wellville," in pkgs. There's a reason.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## SEES IRON RULE AND THE NOOSE AS MEXICO'S ONLY HOPE

General Huerta's latest photograph.

In a recent interview General Huerta, exiled dictator of Mexico, declared that an iron ruler, with a big stick in one hand and a rope in the other, is Mexico's only salvation. Hangings by the wholesale, he intimated, would pave the way for the complete pacification of the land of his birth, and then would come that prosperity to which the country was entitled and which her resources, developed under peaceful skies, assured.

## BRICK AND AN AXE USED IN LITTLE FAMILY JAR

The domestic troubles of Charles Scott, an employee of Contractor Frank Seymour, and his wife were aired in police court Friday morning, both having been ordered in for fighting Thursday noon.

The couple live in an alley house near Eleventh and Gay streets and a racket started when Scott came home unexpectedly and found his cousins there. He ordered them from the house, and during the argument that followed he slapped his wife and she hit him with a brick. She also raised an axe to strike him, and the screams of their two little boys caused a big commotion in the neighborhood.

Scott told the court he had repeatedly warned his wife against permitting his cousins about his

home. Scott was recognized by the court as the same who a few days ago swore out a warrant for the arrest of one William Frazier for alleged interfering with his wife, but who has never been apprehended. It developed from Mrs. Scott's testimony that the girl visitors had asked her if the police were looking for Frazier, who they said was now at Turkey Creek. She said her husband was a good provider, but that he talked too much, accusing her of things of which she was innocent.

Asked if he could talk any more than she could, she replied sharply: "No he can't!"

The oldest child began crying when Scott assured the court he did not care if his wife was locked

up. He said he expected to send for his mother and entrust the children to her care once he secured a divorce, which he intended doing unless his wife mended her ways.

The court, advised him to maintain his present course, continue living together for the sake of the children, but allow the wife to pursue the course she pleased, and then, when the opportune time came, to apply for a divorce. The two were then dismissed with a warning to fight no more.

### Denies He Beat Wife

Austin Radcliff pleaded not guilty to a disorderly charge preferred by his next door neighbor, Dan Buckley, and for lack of witnesses the case was continued until Saturday morning.

Buckley claimed to have overheard Radcliff beating and threatening his bride of a few months, they just recently coming here from Newport, Ky., to live with Radcliff's mother. He also claimed Radcliff had called Mrs. Buckley a vile name.

Radcliff denied the accusations, declaring that he had simply been "cutting up" that he had first tried to play with his mother, but as she pleaded she was tired, he seized his wife and began a friendly tussle with her, during the course of which she bumped her arm against a bed-post and began crying. He said when he stepped outside, Mrs. Buckley began calling him wife-beater and other choice names, at the same time showering him with brick-bats. He said when Officer

Botzo came he told him there had been no trouble and asked him if he had a warrant. Botzo returned later with two other officers and arrested him. Radcliff's bride and his pretty young sister corroborated his story, that there had been no trouble whatever. Buckley, in answer to a query of the court, denied any knowledge of the brick throwing said to have been done by his wife, but created a laugh when he smilingly added, "The old lady might have chucked a brick at him!"

The principals and witnesses in the case of Davis Hanna, charged with alleged cutting William Browning, again failed to appear, and it was continued indefinitely.

Elmer Porter pleaded not guilty to furnishing liquor to Miss Lottie Graycraft, who is alleged to be a person who drinks to excess, and his hearing was set for Saturday morning. Porter maintained he was 21 years of age, though his mother insists he is only 20 years old. Frank Graycraft was ordered

re-arrested in an effort to determine who it was smuggled two half-pints of whiskey to him while he was a prisoner at the police station a few days ago.

E. J. McNeel, a pill vendor, and Frank Graycraft, a plain drunk, were fined \$5 each for intoxication.

**COLUMBIA TONIGHT**  
Edward Peple's Novel Romance, "The Love Route" Latest Famous Players Feature

The famous romance of the ranch and the railroad, "The Love Route," by Edward Peple (author of the current comedy triumph, "A Pair of Sixes"), is the latest Famous Players Film Company's four-part feature on the Paramount Program at the Columbia tonight.

Among the many striking effects introduced in this subject is the actual construction of a railroad, from the first spade dug in the ground to the laying of the last tie, and the final running of the mammoth engine over the newly-laid line, a distinct novelty in motion pictures. The main characters in the play are a railroad civil engineer and a young woman, the owner of the ranch through which the new railroad is to pass, which she tries to prevent even at the points of the revolvers of her cowboys.

These two characters, when they meet, bring forth a clash of will under circumstances rarely seen on the screen. The fact that they had previously loved each other deeply adds to the interest of the plot. To the very end she fights and ultimately triumphs, but she eventually awakens to the greatness of her love for the engineer after he is shot by one of her men, and is herself responsible for the completion of the line within the required time limit granted the railroad company. Produced in California, the em-

Anita Stewart at Lyric Tonight In "From Headquarters"

"If I had no fury like a woman scorned!" Driven to the point of desperation when her employer-lover, to whom she had given all that a woman holds dear, casts her off for another girl, Rose Peters, stabs him. Her father is an officer of the law, stern, almost calloused, and when he discovers upon investigation—that his own daughter is the guilty one, he realizes for the first time the tremendous impulses which sometimes prompt a person to commit a crime. That does not interfere with his sense of duty, however, and he is about to arrest the girl—when, from Headquarters comes the word to drop further investigation. What was the reason? This afternoon and evening at the Lyric theatre you will learn the cause for this edict.

Early Williams and Anita Stewart are in the leads, and the restraint of our curiosity will be well repaid by these peerless players. "Killed Against Orders," the special feature tomorrow, is another wholesome, gripping story that you shouldn't miss seeing.

Jess Willard at Arcana Theatre Tonight

One of the biggest motion picture features ever shown in the city will be Champion Jess Willard in "His Heart Punch," which will be reproduced at the Arcana Theatre tonight, (Friday). The great now heavy-weight champion who wrested the crown from Jack Johnson, is in the eyes of many Americans, the greatest hero of the age. He will be shown in a four-round bout, the sequel of which is a human interest story—in a fight that meant everything to his interesting family. The big fellow will also be featured in training stunts, while he was get-

ting himself in readiness for the battle that won for him the crown of champion of the world. The pictures are clear and distinct, and no doubt the Arcana will be filled at every performance. Manager Potts secured this big attraction at a heavy expense, going on the theory that there was nothing too good for Arcana patrons.

The admission will be ten cents to everybody. In addition to the Willard pictures Manager Potts will show an additional reel, a picture that will be in keeping with the high class performances that are being shown daily at the Arcana. Women and children are especially invited to attend the shows.

### At The Exhibit

"Imar the Servitor" is a two reel special that is holding the program at the Exhibit tonight. It is another one of those good features that please. In addition there is a comedy entitled, "Bill Thrus Valet."

For Saturday Manager Law is offering a two reel Keystone feature. These pictures always make a hit and patrons of the Exhibit cannot afford to miss it. There is always good music at the Exhibit and the price is always five cents.

### 5c At The Temple Theater

"The Girl Who Might Have Been," is on tonight's program. It unlocks the door to every thrill of human existence. Is love the greatest thing in the world? Can love blast happiness and wreck lives? After years of hatred, is revenge sweet? Is greed a vital passion? Is remorse our worst "punisher"? See the dance hall girl prove her gratitude to her benefactor. Played by Leona Horton in the lead. The third reel, an American drama, entitled "His Mysterious Neighbor."

The fourth reel is a Keystone comedy entitled "Beating Hearts and Carpets," a laugh in every scene.

## The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 80 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same should appear on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines. It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness. Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

## IN MEMORY OF PROF. D. B. DAVIS

The following memorial composed by Genevieve Bender displays unusual talent for a girl of her age. Miss Bender is only 13 years of age, a daughter of Mr. and Mrs. George Bender. She is a pupil of the Sciotoville school where Prof. D. B. Davis taught music.

Prof. D. B. Davis, our beloved music teacher, died March 27, 1915.

Thou hast gone we know, dear teacher,  
To a far and better land;  
But thy cares are all forgotten  
At the placing of the hand  
Of God who now has called thee,  
When He calls we all must go,  
But we only go to happiness  
And forget all cares and woe.

## THEATRICAL

### At The Sun

Billie West and his Collegue Girls are putting over a classy musical show for the last half of the week. This show is full of good clean comedy and the Dutch comedians is a scream while Billie West gets his share of the laughs. Buelah Benton is the best singing lead that has appeared at the Sun theatre. The special effects used with the song "When The Angels Are Ringing" made the hit of the bill and this number is worth the price of admission. An entirely new set of scenery is used and some beautiful effects are shown. The chorus, a lot of pretty girls that can sing and dance, make a hit and some of their numbers get rounds of applause.

This show is worth the patronage of the people of Portsmouth who enjoy a good musical show and you miss a good one if you don't see it.

## THE CROWN OF GLORY

Drawn by Eva Shepherd

Copyright, 1915, by Herbert Ponting.

Night bent down to kiss her fair young cheek, and lost its gleam in the wavy tresses of her hair!

Mysterious and shadowy as a midsummer's eve, electric as a fastly clouding sky, filled with the endless dreams of endless summer, fragrant with the breath of a rose-scented wind, man's gaze travels from the promise on her lips, past the sunlight dancing in her eyes, and dwelling on her crown of midnight hair, lingers content.

"Fair tresses man's imperial race ensnare,  
And beauty draws us with a single hair!"

## BROTHER OF R. M. BATES WRITES ABOUT SINKING OF SUBMARINE AT HONOLULU

Richard M. Bates of the architectural firm of Ritter and Bates with offices in the First National bank building is in receipt of a letter from his brother, Lieutenant Paul M. Bates, who is in Honolulu, giving an interesting account of the sinking of submarine F-4 as follows:

"I will tell you all I know about the 'F-4.' She went out for a short dive at 8:30 a. m., March 24 at noon she had not returned so we sent out all submarines and all of our boats searching for her. Just outside the harbor about 5:00 p. m., we discovered large quantities of oil in the surface. With our submarine telephone and bell we sent signals but never received an answer. The area of oil was so large that it was impossible to locate the boat and the water in 50 fathoms (300 ft.) deep. That night we had tags with large chain cables and dragged over the bottom but on account of the great depth, the strong tide, the many rocks and pinnacles on the bottom it was impossible to know whether we had the submarine or not. Divers could not go down to such great depths, although we had one man break the world's record by going down 215 feet, but he could not see anything of the boat. We finally located the F-4 by air bubbles rising to the surface in large quantities and by sounding with a microphone we determined that it was actually the boat. We put large wire cables 2 1/2 in. diameter around her by dragging them along the bottom with tugs. These we took great strains in and tried to drag the F-4 into shallow water but on account of the nature of the bottom we could not move her and parted all of our lines. We had worked then five days, night and day, all hands. So we had to knock off and sleep and rest. We were all jugged out. We knew then that there was no hope for the men inside because the boat even without an accident could not stand up under the great pressure of the water at 300 feet. That is, she would leak so in five days that all hands would be drowned. We are now almost ready to raise her. The last week and a half we have put large cables around each end and have built two large pontoons capable of raising 600 tons apiece (1200 tons) on which we have engines, pumps, etc., by which we hope to lift the boat. But even this equipment is very inadequate and as it was made in two weeks it naturally is very crude. So I am sure we can raise it.

"Of course we do not hope for the lives of the men but we do expect to find out what happened and thus prevent future accidents. There were two officers and nineteen men in her. We all have theories about what happened, but of course we can't tell until she is raised. There might have been an explosion which blew open the hatch, in which case every one was killed immediately. One of her tanks might have burst and flooded the battery and created chlorine gas, in which case they lived a very short time, being asphyxiated. Then again, the muffler valves from the engine might have opened up and flooded the engine room, then the pressure of the water gradually broke down the bulkheads between the different compartments and finally flooded the whole boat in which case they died an awful death. It is my opinion that what happened happened very quickly because there are so many things we can do in a submarine to raise her from inside. And also we have different methods of signalling which these people never used. So I think they were killed before the boat sank.

"I will have to admit that I'm in a rather dangerous business, but one becomes so accustomed to it that they never realize what it is until too late."

## About Prescriptions

I. H. STEWART

Before we opened our doors whatever price was printed on a package that price you were compelled to pay. Since our coming the prices on medicines have greatly decreased while prescriptions have soared to their limit. War prices have been a splendid excuse and is being abused. There is not a reliable drug house in the country that is not over-stocked with two or three items. They use them as a source of advertisement to get your attention as does the average home merchant. We purchased no large bill from any one house. Our orders went to New York, Chicago, Detroit, Cleveland, Philadelphia and Baltimore. And we did not pay so very much more on account of the war.

Mr. M. A. Crutcher comes to us holding recommendations from some of the best physicians in Northern and Central Ohio. He is a graduate of the Ohio State University where he graduated with honors and secured the degree of Bachelor of Science.

All prescriptions will be filled at the Chillicothe street store. The leading feature of either store will be to call for the prescription at your home or place of business, take it to the store, fill it and deliver it at no extra expense. Thanking you for your valued patronage in the past, I am

Respectfully,

**I. H. STEWART**

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bile ailments. During these years he gave to his patients a prescription made of a few well-known, vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects. If you have a pale face, hollow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition. Dr. Edwards' Olive Tablets, the successful substitute for calomel—10c and 25c per box. All druggists.

## The Dream

A "Merchant Prince" was the picture that filled the mental vision of young, ambitious John Blank.

It would be a great merchant and full page advertisements bearing his name would tell the story of his bargains and his business.

As age sobered this young youngster, he saw that "his business" started small and grew, and is not born full size. He saw that page advertisements are for the developed business of large dimensions and for important store news.

## The Reality

MANUFACTURER'S SALE—100c high-grade 14-karat solid gold fountain pens, as low as 65c. Regular \$3 and \$4 pens. Mail orders promptly filled. Dealers write for prices.

The want columns of The Times caught his eye, however, and a practical idea was born.

John Blank started a small fountain pen business in an office off the ground floor and he "kicked into" the want pages with an inexpensive and profitable campaign of advertising.

"Times want ads are making the practical part of his dream come true."

DISTEL COMPANY MAY  
BUILD ADDITION; PLAN  
FOR A BIG SALE SOON

The incorporators of the new Distel Furniture company, successors to the Hansen Furniture company, are considering the advisability of building an addition to their present building at Seventh and Chillicothe streets. They have a space of forty-five feet in the rear of the building which is unoccupied, and if the addition is built it will conform to the building proper in height and design.

One-half of the first floor of the present building will be for rent, and the company is dickering with a few prospective tenants. It is also planned to rent the second floor, which formerly was considered the most desirable hall in the city. It is upon the latter contingency that the building plans for the addition depend.

The store will close down Saturday night for four or five days in preparation for a big sale which will be started about next Friday. Values will be sliced right and left in an effort to move the stock of the old concern, and make way for a new stock.

The new company is still waiting for incorporation papers from Columbus, and as soon as they are received, a meeting of the stockholders will be called and an organization effected.

MRS. THOMSON  
TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 62 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. THOMSON, 649 W. Russell St., Philadelphia, Pa.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Flush Your Blood  
Get it Cleansed

Remarkable Remedy That Works All Through Your Body.

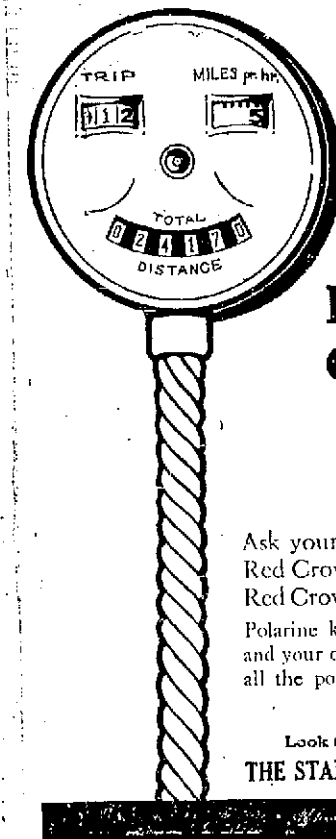

When you put a tablespoonful of S. S. S. into your stomach it gets straight into your blood. In less than five minutes it has become a wave of restorative influence wherever the blood has circulated. Does this sound like magic? It is absolutely true. Those powerful digestive juices in the stomach can not change the medicinal effect of S. S. S. The liver can not burn it. The lungs and kidneys excrete it only after S. S. S. has set in motion millions of cells and nerves to throw off the countless germs that have infected every part of the body. And as S. S. S. continues to battle those troublesome pests that gather in the form of pimples, boils, eczema, acne, catarrhs, rheumatism, and other venereal blood disorders, it routes into action a myriad of strange but well-understood corporeal elements called leukocytes that actually devour or change every germ disease germ so they are readily and quickly cast out of the body. It is probably the best appreciated blood medicine known. You will find S. S. S. in nearly every drug store in the U. S. Get a bottle today. And if your case is peculiar, write to the Medical Department, The Swift Specific Co., 163 Swift Bldg., Atlanta, Ga. It is conducted by a noted physician.

## MORE CHEERFUL FEELING PREVAILING

Cleveland, O., April 23.—The Iron Trade Review today says:

"The announcement of the Pennsylvania and the Pennsylvania Lines West" that \$25,000,000 would be spent in new equipment has been the most encouraging event of the past

week, eclipsing even the news in regard to orders for war materials and for lathes to be used by American manufacturers who have taken orders for projectiles. The appearance of the Northwestern railroad with an inquiry for 2,000 cars and the development of some other railroad business has added to the more cheerful feeling prevailing.

## SKIN ERUPTION ITCHED AND BURNED

On Face and Shoulders. Scratched and Made Worse. Great Disfigurement. Used Cuticura Soap and Ointment. Spots All Gone.

R. F. D. No. 3, Box 9, Joplin, Mo.—"My trouble began first as little red spots appearing on my skin. These affected my face and shoulders. They itched and burned terribly. Then I would scratch them and it would make them worse. My whole face and shoulders would be sore. The eruption came when I was in the sun and got very warm and when I did my face would break out worse. It was a great disfigurement while it lasted. Some nights it kept me awake. I could hardly bear any clothing on my shoulders at all."

"I tried several different remedies all in vain. I almost gave up trying when a friend advised me to use Cuticura Soap and Ointment. In a week my face began to get better and in another two weeks the spots were all gone." (Signed) Miss Alta Scott, June 2, 1914.

## Gladsome Reporting Day Here; Ball Players Troop Into Town

This was Reporting Day with members of the Portsmouth team. True it was dark and drab and suggested for baseball atmospherically speaking nevertheless a veritable herd of diamond exponents, budding Ty Cotts and Walter Johnsons arrived last night and today. They are here with their systems full of confidence and declare they are going to make good.

Those who arrived early upon the scene fully determined to earn a regular berth on the team are as follows: Patch and Cost of Salem, O.; Bill of Roseville, Chillicothe; D. B. Dill of Cincinnati, Shermen and Jacobine of Cincinnati, Dolan of Lockport, N. Y.; Krysulsky of Waterville, N. Y.; Caton of Zanesville, Emmert of Crestline, W. Johnson (not Walter) and Shuler of Canton, McGowan of Muskegon, C. Wilson of Athens, B. Zimring of Louisville, Ky.; Hero of Wheeling, Laiz of Columbus, Caver of Abbeville and Sherrill of Bucyrus.

Still another squad of players is due to reach the city tonight or Saturday. Manager Spencer stated last night that the fully expected to have 25 ball players in uniform at Millbrook Sunday when the club will play the Portsmouth steel plant team. More than a dozen outfielders reported to the local club last night and Manager Spencer will have enough available material on hand to draft a well balanced team to represent this good ball town in the Ohio State League this season.

### TWO LET OUT

Pittsburgh, April 23.—Sen Smith, catcher, formerly with the Columbus A. A. team, and Jesse Allenburg, outfielder have been released by the management of the Pittsburgh National League baseball club just before the game. Smith who was the leading catcher in the American Association last season was released unconditionally.

### CALLED OFF

New Orleans, April 23.—The match between Johnny Kilbane, featherweight champion, and Jim Manoli, lightweight, set for May 3, was called off today.

## MAY MAKE PEACE WITH THE FEDS

Chicago, April 23.—Conference seeking to establish peace between the Federal league and organized baseball were to be completed here today, according to published reports, although parties to the conference declined to say whether a meeting had been held or what progress towards peace had been made.

Negotiations for peace were begun at a meeting yesterday, according to the Chicago Herald, which says that B. B. Johnson, president of the American

league; Phil Ball owner of the St. Louis Federals; Robert L. Rodgers, owner of the St. Louis Americans and Judge Geo. E. Williams, of St. Louis, one of the attorneys for organized baseball, met and discussed peace proposals.

President Gilmore, of the Federals, when asked concerning the development said that Mr. Ball expected to remain in Chicago, today, adding: "Why, you know there should have been peace in baseball a long time ago."

## To Play Sunday

### Huntington Coming

The crack duck pin team of Huntington will come to this city next week to stack up against Ralph Mansfield star gang of duck pin rollers. Byron Prediger, George Wilhelm, Robert McCorkle, Ralph Mansfield and Al Wessler will represent Portsmouth.

Messrs Meyer, Nagel, Hickey, Blackwood and Callaway will represent Huntington and if the latter five lose they will have to pay their own expenses.

## ALONG THE BASE PATHS

There is joy in Columbus. The Senators have won a game, the first of the season.

It looked natural to see Billy and Bill around the play house last night. They are mighty glad to get back in Portsmouth.

Fred Hunter is up to his old tricks down in Ft. Worth. In a recent game he lined out a double and two singles.

Of course it pays to be a boxer. Mike Gibbons, the St. Paul phantom, is putting up a \$20,000 flat building in that city.

Leine Cook kept up his fine work Thursday at Pittsburgh, securing two doubles. Some ball player this German lad.

Chicago, April 23.—"Jack" Pfeister, former pitcher for the Chicago National League team, was given a verdict for \$2,000 against the Western Union Telegraph company here today. Pfeister claimed \$2,000, alleging that he was deprived of that sum by failure of the telegraph company to deliver to him a message from Hugh Duffy, manager

of the Milwaukee club in 1912, in which Duffy said: "Will pay you \$300 a month."

This is a "sensible" when the players will steal everything but their manager's pay. The leaders have informed them to steal third just as often as they try to piffle second, especially if a right hand batter is up. The players, realizing that the game is a bit shaky in certain sections, are displaying a world of pep this spring.

The Reds are about to ask waivers on pitcher Pittner secured from the Dayton Central League team.

Johnny Shavlin is sure of his job in Cleveland. Bobbie Quinn says he is one of the best balanced infielders who has ever broken into the A. A.

Catcher Billmeyer says that Southworth's playing has won the heart of every Cleveland fan. "They are pulling for Southworth to join the Naps" Billy said last night.

Billmeyer reports in fine shape as he has been working out with the Cleveland Browns. He says Nick Carter is considered the best right hander in the

Manager Ches Spencer's Ohio State leaguers will meet the Portsmouth steel plant team at Millbrook Sunday afternoon, the game to start at 1:30. These clubs put up a rattling good game last Sunday, the Steelworkers losing out by a 4 to 1 score.

How would you like to be John McGraw's roommate these days? The giants are being courted around by all the Eastern teams. The have won only two of the first eight games.

### Cleveland A. A. team.

Columbus has signed Ray Bates, who was turned aside by Cleveland. It is said that Billyard is now slated for his release.

Home Cain has reported to the Lexington Colls. He spent the winter at his home in Claidsville, Fairfield county.

County Mack is not planning any program for his disrupted team this season. He says his revamped outfit will finish in the first division. We shall see.

Pitcher Haggerty, who was with Ironton last year and later was sent to Cleveland has been turned over to Dayton and will become a battery partner of Nick Francisco.

Over 15,000 people protesting fans attended the opening game in Princeton Thursday. Yes, baseball is dead in the National League. Watch we thought so.

Cleveland has sent Catcher Shestak to Denver. This lad was of Millbrook two weeks ago and looked fine in practice.

### GARNERED FROM THE NEW SCHEDULE

Chillicothe will open and close the season in the River City, the two extremes in the schedule will no doubt attract monster crowds.

Lexington plays its last game here on August 3. Chillicothe makes its first appearance in Millbrook on June 15 and the farewell on August 17.

Ironton does not appear in Millbrook during the club's first game. Portsmouth plays the first game in Ironton on May 15 and the wind up there falls on August 17.

### SWATS THE OLD PILL

Harry Hinchman's batting was the feature of Wednesday's game between Minneapolis and Kansas City. He made a triple and three singles in five times at bat. For an old man who was reported as all in this spring, Hinchman is some swatter, and his all round play has made him solid with the Kansas City fans. He formerly conducted a billiard room in this city in partnership with Pete Chabbs.

### PITCHER SIGNED

Frank E. Moore, a big pitcher, who has been with the Angels in the Capital City league, has been signed by the Chillicothe club. Moore is a big fellow, 6 feet 2 inches tall and weighs more than 200 pounds. He was recommended by President Carr to the local club.

### SAME OLD RED

Red Whelan, former Irish, reported Tuesday at Omaha, New York, to begin the season with that team, which is one of the members of the Eastern League. Red is quite popular in the eastern part of the country and attends with great pleasure the many parties that are given in his honor by his lady friends. This is vouched for by the society column of one of the Lockport, New York papers.

### TO JOIN DALLAS

John Thompson, the Kenova boy who has pitched several seasons in the Ohio State league and last year, led the league in the number of consecutive victories, will not be seen in the Carr circuit this year. He was handed his release by Manager Beers, of the Senators, yesterday and has signed to play with Dallas in the Texas organization.—Huntington Herald Dispatch.

### THREE OPENINGS

Jack Knight's Cleveland bears figure in three A. A. openings this year. They opened their home grounds last week with the Indianapolis Indians. Thursday they played in Louisville, opening the Colonel's season at home. Saturday they play at Indianapolis at the Indians' opening. Some inaugural ones, these spiders.

### Along Old Brush

J. W. Dalton and Jonathan Toner spent Thursday afternoon fishing along Brush Creek.

## THE PIRATES BEAT REDS

The Reds found the game pretty rough over in Smokeville Thursday. The Pirates winning 8 to 2. The Reds had three pitchers, but they could not stem the tide. Wagner, that is good old Honus, came back to life and laced out a triple and a single. The score:

## SCOUT CONFERENCE WILL OPEN TONIGHT

The big Boy Scout Conference opens tonight at Seiotville and a large crowd of delegates and their parents and friends will be in attendance. A delegation of sixteen Scouts from Lucasville passed through the city today and a large delegation will go up from Portsmouth tonight in time for the evening's program. The great bulk of the delegates will not reach Seiotville until Saturday morning.

Robert Samson, county president, will preside over tonight's session. Music by the Boy Scout Brass Quartet will be one of the chief features of the program as well as two soprano solos by Miss Anna Davis. The opening address of welcome will be made by Harold Dever, Senior Patrol Leader of Seiotville. A response will be given by Harry Wagner of troop 3, Portsmouth.

The red letter feature of this opening session will be a debate between troops 2 and 9 of Portsmouth. Being a regular "cup series" debate it will be full of interest. Should troop 2 come out victors tonight they will be cup winners for 1915. Should they lose to troop 9, both will then tie, and another debate will have to be arranged by the debating society. Troop 2 will be represented by Debaters Russell Williams and Marion Garrison; troop 9, Cecil Tidd and Robert Samson. The judges selected are Rev. A. B. Johnson, Melvin Bentley and Mr. C. W. Rhenour, formerly Boy Scout Field Secretary of Portsmouth. This is the seventh debate of the cup series, and is creating more interest than any of the previous, owing to the ability of both teams and the interesting subject selected, "Resolved, That Heredity is a More Powerful Factor in the Development of Character Than Environment."

The evening's program will come to a close with the bugle call, by Mr. Charles Brunner, leader of the Boy Scout Band.

**Saturday Sessions**  
The first conference session Saturday will begin promptly at 9:30 o'clock, and all Portsmouth delegates should take the 9:00 o'clock car at New Boston, which arrives at Seiotville at 9:15 a.m. All sessions will be held in the Methodist church.

About one hour will be devoted to business at the morning session, which will consist of the election of a new vice-president and the hearing of troop reports.

This will be followed by 3 practical discussions on the subjects: "The Scout in School"; "What Should Be Done With the Scout Who Breaks the Scout Law?"; "How to Win a Merit Badge in Photography." Howard Graf, of Troop 5, Portsmouth, gives the closing address of the morning, his subject being "The Duties of a Scout."

The entire afternoon program will be an out-of-doors one, consisting of all kinds of scouting stunts and baseball. Should the weather be unfavorable for baseball, the conference delegates will hike to the cabin recently built by the Seiotville troop, where dedicatory services will be held. From that point they will hike to the site of the new C. & O. bridge.

A splendid program has been arranged as a fitting climax to the conference for Saturday evening, and one which will send every delegate from the little village with a greater determination to be more active in the ranks of this great organization in the future, and inspired to live up to his scout obligations as he never did before.

Every session is open to the public. Parents of boys are especially urged to attend.

**Still Undecided.**  
Mrs. Jesse L. Scott, wife of the Quincy, Ky. merchant whose store and home were destroyed by fire one day last week, returned home from Oklahoma, Thursday. They are as yet undecided as to their future plans.

**For Furnishing Liquor**  
Elmer Porter was locked up by Officer Goings Thursday night for alleged furnishing liquor to Lotie Craycraft. The young man's mother reported to the police that he is but twenty years of age and asked that efforts be made to learn from him who sold liquor to him.

**Boy Was Afraid He  
Would Be Punished  
And Takes Poison**

Trenton, O., April 23.—Because of fear that he would be punished by his teacher, following a quarrel in which the teacher had told him that an investigation would follow to determine the blame in a minor case of school discipline, Charles, the 12-year-old son of Mr. and Mrs. Edward Tipton, of Coryville, Thursday morning swallowed enough paris green to kill a small army of men, and but prompt and vigorous efforts on the part of Dr. Dan Gray, who was summoned, saved the lad's life. He was still reported in a serious condition last night, but it was thought that he would recover.

The boy arose as usual Thursday morning and swallowed the paris green immediately after finishing the meal. Fortunately his mother noticed something unusual in the condition of her son and ascertained within a few moments that he had swallowed the deadly poison. Dr. Dan Gray was hurriedly summoned and worked feverishly for hours before the boy's condition was relieved, and there was a slight chance that he would recover. It was stated that death would have occurred before the arrival of the physician had not the over-dose of the poison produced vomiting and relieved the youth's stomach of part of the poison.

The little fellow was regarded as a quiet and attentive lad, but a misunderstanding arose in the Coryville school on Wednesday and the teacher stated that he was going to determine the guilty one and punish him and also punish the boy who was guilty of telling a falsehood. This probably bore so heavily on the child's mind that he became despondent and later took poison.

**EFFORT BEING MADE TO  
FORM MILITARY COMP'Y**

Unless present plans miscarry, Portsmouth will soon boast of another military company, one that will reflect creditably upon the city and command the respect wherever it may be detailed. Authority has been given Captain James W. Smith to recruit the company and perfect all arrangements, and he plans to call a meeting of all young men who are interested for an evening early next week. At this meeting the proposition will be explained fully to them, and those who meet the requirements will be asked to sign the muster roll.

Business and industrial interests of the city are behind the movement to establish a company here, and they will give it every encouragement possible. The value of a military company to a city has been often marked, and

**Work Delayed**  
Carpenters at work on the new Garfield school building going up on the Gallia pike have been delayed for several days on account of the non-arrival of structural steel.

**YOUR HEAD AND STOMACH**  
Headache caused by a disturbed digestion is nearly always accompanied by pain in the stomach, belching of gas, creating often by constipation. The sort of headache is generally located in the forehead and is not constant but comes and goes. It does not come on immediately after eating but after the food has had time to ferment which it does because of gas, five days that should take care of it are insufficient, because the glands that secrete these fluids are weak, because the blood is failing to nourish these glands properly. Rich, red blood is the first essential to proper digestion and the digestive process cannot go on without it. When lack of nourishing blood causes fermentation and poisons are absorbed from the digestive tract, the pain in your head, advice you of the fact. Dr. Williams' Pink Pills give the blood just the elements they need to correct this condition and, with a laxative, when required, form a perfect treatment for the headaches of indigestion.

Mention this paper and we will send you two little books on the diet and the proper use of a laxative. Address: Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

**LADIES! LOOK YOUNG,  
DARKEN GRAY HAIR**

Use Grandma's Sage Tea and Sulphur Recipe and nobody can tell. Brush it through hair.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wiry and scruffy, just a few applications of Sage Tea and Sulphur enhance its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 65 cent bottle of "Weyth's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You mention a sponge or soft brush, with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application of two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise care The Daily Times, Portsmouth, O. Office Phone 80. Residence A-400.

Dear Dolly.—To settle an argument which is correct, sideburns or burnisides?

**A READER.**  
Burnisides is correct. The name originated with Gen. Burnisides, who wore his whiskers not that way. Later they were called sideburns.

Dear Dolly.—A "rookie" is a recruit soldier—not yet broken in. Jackson first used the term when he said: "I have 3,000 regulars and 4,000 rookies." Eddie Meahan might have introduced the word into base ball, but it was coined long before he broke into print.

**ONE WHO KNOWS.**

Miss Dolly Wise.—As you have given so many advice I have come to you for advice. I am a married woman and keep house and my husband takes all the money. I work hard all the time and stay at home. Do you think he is doing me right, and what can I do?

**A WORRIED WIFE.**

**DID IT EVER HAPPEN TO YOU?**

Wife.—Henry that parlor floor must be fixed up, it looks horrible, the paint is all scratched off and I can not clean house till you fix it.

Husband.—All right, Mary, just telephone Flood & Blake No. 93 and leave it to them.

The odor from this is bad and what will it be in hot weather. Now as I don't like to move would like for you to tell me if there is a city law to prohibit such as this?

**READER.**  
If they were mean enough to put a chicken coop by your window I do not think anything I can say will make them remove it. There is no law that I know of that prohibits one from keeping chickens in their own yard, but if they do not keep the coop clean you can report them to the board of health.

Dear Dolly.—I am thinking about getting married in the near future and would like to do it quietly—sort of slip one over on my friends. My folks of course know my intentions. I intend to be married at home and just have a quiet home wedding some evening. Could there be any objections to this?

**THE GIRL.**  
There is no objection to getting married without any previous announcement of the engagement, but don't you believe your friends would rather resent your attitude? There is no reason why you should not have a quiet home wedding, but I believe it would be advisable to tell your friends of your engagement, telling them at the same time that the wedding was going to be very quiet, and that the date was not definitely set. Then, if you desired, you could be married without telling them the specific time.

Miss Dolly Wise.—I want to go to housekeeping and my husband isn't willing to do so. What can I do to get him in the notion of going to housekeeping? I am a newly married woman. So advise me what to do.

**MRS. NEWLAWED.**  
Go out and hunt a suitable house and then tell him you have rented a home and ask him to go with you to select your furniture. I think you can win him over if you know how to manage a husband. You made a mistake by not making provisions for the future before you got married. Before a man gets married he ought to have a home furnished for his bride. Maybe he can't afford to go to housekeeping. It will take at least several hundred dollars to furnish a small house comfortably these days.

Dear Dolly.—I am a girl of 19 and I am keeping company with a gentleman of 22. He is very dear to me, but he can't hold a position, and is always short of money. He wears good clothes, but is not good looking. My parents object to my marrying him. I think he is only unfortunate in not finding the right kind of work. Is it wrong for me to give him my tickets, wash his gloves and wash and mend his socks and handkerchiefs? I often make him cake and little lunches, and help him keep up appearances. Nobody knows I help him. What would you advise me to do? I love him dearly and we both want to get married as soon as he can support me.

**WORRIED GIRL.**  
You are doing the boy an injury by helping him so much. Make him stand on his own feet and tell him that until he is earning a comfortable salary you will not even consider marrying him. This means that you must maintain a purely platonic relationship or what you say will have no effect. A boy who works earnestly can at least hold a job, that is, if he is of normal intelligence.

**YOUR MONEY**  
is well spent if you spend it at WENDELKEN'S. Watch, clock and jewelry repairing. Work called for and delivered. 805 Gallia St.

## SOCIETY

The song recital given for the benefit of the Standard Bearers of Trinity Methodist church last evening by Mrs. Norma Mark Young, assisted by the best known talent in the city, Mrs. S. R. Crawford, organist and pianist, Mrs. Charles E. Hard, violinist, and Miss Ruth Crawford, violinist and pianist, and Mrs. Lena Kline Reed as reader, needs no other praise, as the participants are all too favorably and well known for much comment. Mrs. Young always sings beautifully. Mrs. Crawford a fine accompanist and organist; Mrs. Hard whose selections on the violin are always a delightful feature of entertainments and Miss Ruth Crawford a young musician, follows closely behind her mother as a pianist and her aunt as a violinist. ### DON'T WASH YOUR HAIR WITH SOAP

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain unsifted coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Mrs. John Edwards, of Los Angeles, Cal., who has been visiting her sister, Mrs. John E. Williams, has gone to Ironton to spend a few days with her brother, Dr. C. Davies, after which she will return to the Williams home to continue her visit until the middle of May.

Mrs. O. W. Robe continues to recover steadily at her home on Eleventh street, from the surgical operation she recently underwent.

Mrs. Edward Riskey donated seven blue and white suits for the four-year-old boy at the Day Nursery after seeing the notice in The Times, asking for the little suits.

The Ladies' Aid Society of Trinity Methodist church met yesterday afternoon at the home of Mrs. C. Lloyd Strecker, where plans were made for a chicken supper at the church next Thursday evening. Arrangements were also made for a play to be given some time next month.

### RAISING A RUMPUS.

Finding that his usual exhortations and exhortations are not causing the desired interest, at Paterson, N. J., where he is now holding forth, Billy Sunday diverged to a somewhat new line, the other day and he surely has set something going. In doing this he uses a comparison, which is always odious. He told his audience that fifty-two per cent of the men living south of Mason and Dixon's line were Christians, north of that line twenty-four per cent and on the Pacific coast only six per cent and after most of the professors in this latter section you can put a question mark. Then he proceeded to rub it in by saying there was more pure bred Americanism in the South. They were hard to lick in the sixties because they were real Americans, according to Sunday. So down in Dixie they have got the North beat to a frazzle in religion and morals. That's why it took thirty million Northerners to lick nine million Southerners, says the Evangelist.

The advantage of Sunday lies in the fact that he combines a few figures with conclusions and then arbitrarily asserts the whole as facts and leaves to others the vague task of attempting to disprove what is after all but a mere conclusion on his part, and one that according to the logic of his own profession is wrong. For at the time the war was fought the South was all wrong and the North was all right, as the issue between them was the abolition of slavery, which the latter enforced. No matter how many men may have enrolled themselves in church membership, that did not make them Christians, it did not make their moral standard correct when they were acting in error. All this, of course, according to the theology, which we assume Billy Sunday teaches.

Coming down to the actual facts of the present, we believe he unduly exalts the South at the expense of the other sections of the union. Imaginary lines and claims do not mark the christianity and morals of the nation. Memphis may not be the wickedest city on the continent, but on size nothing will be found worse. It's a careless fashion to speak of the immorality of the North as coming from the large foreign population, but it is unjust and untrue. Both divisions, native and foreign average up to a similar standard and neither has anything to brag on over the other. As for the west, we can't see how it is to be depressed to the level set for it by Billy Sunday. Wasn't it moral and christian enough to give those famous welfare and uplift inventions, the initiative and referendum, the recall, popular election of United States senators, women's suffrage and the primary?

No, friends, we are not provincial in our christianity, nor demarcated by lines in our morals. We are one people, united in our virtue and indivisible in our faults; in a word, just Americans, ready to fight side by side for the common flag and country at the drop of the hat.

Of course so long as those surly thieves do not take it into their heads to steal the city service wagon and take a joy ride, the rest of us can manage to worry along with the occasional loss of a magneto or carburetor of a tire or two.

"Of course," said the man who stands on the First National Bank corner every day in the year, holidays included, "it was mighty easy for the boys who got the drinks, but still you must admit that it was a little rough on the aspiring mayoralty candidate who spent \$3.75 for drinks in that Bucktown saloon to find out afterwards that 23 of the 26 who cheered him on in his noble effort to part with his coin were Virginia dorkies who couldn't vote in Ohio, even if they wanted to."

Montclair, whose only drawback is that she is located in New Jersey, has given herself a bright and shining place on the map. She has just graduated a class of fifteen housemaids. These maids are a credit to their profession and their profession is proud of them, because their industry and accomplishment have raised their occupation to the dignity of a profession.

Annually or thereabouts there is wonderment why people will continue to stick to Mill and Front streets. When one sees the estimate put on the damages a flood wall will do to reality thereon it is all plain enough.

The problems of viaducting or abandoning Kendall avenue and outflitting Harvard Place we have always with us.

### IGNORED

### THE WAY OF A WOMAN.

Mrs. Helen Usbeck, of Long Island, wants a divorce. She has not lived with her husband for three years, and when her case came up in court the attorney for her husband earnestly caused to be read a letter she wrote Mr. Usbeck, in which she said:

"Now that I am a grass widow I have plenty of admirers. I lead them just so far and then give them the mitt. They tell me that during my enforced widowhood I am daily growing sweeter. Men are all fools, and I could set any number of wives crazy. Your last kiss set me on fire. Do you imagine that I can go six months without a husband? Guess again. I have captivated several men and they have fallen."

Mrs. Usbeck may not have been as prudent a wife as a quiet man might desire, but she has certainly picked up a lot of reliable information about the male sex as she has gone along. Her assertion that "men are all fools" puts her in the class of wise ones. And who can doubt her ability to set the wives of other men crazy?—Cincinnati Tribune.

The Roosevelt forgetter is again in active working order. And how like old times it seems to read that Billy Loch is to be called as a witness to help the Colonel out of the hole into which he fell when he let loose a few mild adjectives at William Barnes, Jr.

Still, while we like to see that good old Summer time hastening along, we must confess that we would just a little bit rather have ours with the lightning and the thunder left out.

Never having had our magneto stolen we are not qualified to say exactly how such a loss affects a man, but we imagine that it is calculated to make him say things that might imperil his chances for a front seat in paradise.

There is nothing like The Times as an advertising medium. Wednesday, this column said a rain was wanted. Thursday there was a real juicy shower and it was received in glad welcome.

War is all General Sherman said it was and then some. The French generals are said to kiss their subordinates whenever they do anything particularly approvable.

Out in Missouri they call these statutes that are aimed to uplift the man that doesn't want to be uplifted, Lizzin laws, which isn't half bad for a term.

Many pleasant and complimentary things are being said about Nelson W. Aldrich. That is usual and may be natural. Nelson W. Aldrich is dead.

## Doc Koko's COLUMN

"Doc Koko" attended a popular song concert the other night and because so enthused over this brand of melody that he went home and tried his hand at it himself. If any of "Doc's" friends can hammer out some music for it "Doc" will go fifty-fifty with him. Here is "Doc's" song.

### Popular Song (By Doc Koko)

Across the street the corner round lives the sweetest girl. Her father is a blacksmith and this girl is his pearl. She blows the bellows, swings the sledge and hammers all day long. Her name is Rosie O'Meckledorff and to her I sing this song.

Chorus  
Sweet Rosie O'Meckledorff, Forever I'll love you, Just say that Denny O'Merikoff is gone quite dippy over you. And some day we will be married Early in June or July. Then we'll be happy forever, Sweet Rosie and I.

Her cheeks are rosy as her name, her arms are big and strong, For she's the blacksmith's girl, you know, and hammers all day long. And when I asked if me she'd wed, she said "you butcher life."

Soon I'll retire for who need work with a blacksmith for a wife.

### Another Jitney Joke

A small Jitney bus was standing at a corner awaiting passengers when a ruralite, noticing the sign "Five Cents", stopped to look the machine over.

"Waal," he drawled, "I don't know as I'd want to give much mornin' to that fer it, but I suppose the dig-busted thing ain't nothing but a sample."

Dealer — Very prettily, mum, for so young a bird.

### Why She Wept

I asked her why she wept, "The truth she then revealed, By holding up before me An onion she had peeled."

### Her View of It

Teacher — "What is it that binds us together and makes us better than we are by nature?"  
"Corsets, sir," piped a wise little girl of eight.

A clever young clerk employed at the N. & W. terminals sent Doc Koko the following "pome" with the request that it be published so here goes:

## Animal Jingles

HOW THE ANIMALS MADE GARDEN

Clarissa Chicken said, "I think that in my garden-bed I'll plant some corn, because I am quite fond of it," she said.

"And then, beside," Clarissa said, "although I do not know, it seems to me that corn must be an easy thing to grow."

"Because I'm sure I would not want to have to work a lot. At gardening these summer days, it is too awfully hot."

"But," said her friends, "in growing corn you'll really have to hoe."

"You're wrong," Clarissa Chicken said, "I'll simply let it grow."

And so she took some seeds of corn and threw them carelessly upon the ground; "It's too much work to plant the stuff," said she.

That night there came a dreadful storm, and sad to say, next day Clarissa Chicken's corn crop was entirely washed away.

Said Mother McGrow, "It's time wasted, I fear, To do things by halves or to slight them, my dear, For here is a thing that I've often heard tell, A thing that's worth doing is worth doing well."

### FATHER SCHNEIDER WAS POPULAR WITH LOCAL PAROCHIAL SCHOOL PUPILS

A pathetic incident is related about a class room scene that took place when word reached St. Mary's parochial school Thursday of the death of Rev. Father John J. Schneider at Ironton. Robert Wellman, a second grade pupil and son of Mr. and Mrs. A. W. Wellman, formerly of Ironton, overcome by the word, arose from his seat, walked to his teacher's table, buried his face in his hands and sobbed as though his heart would break. This so affected the other pupils that they could no longer restrain themselves and also began crying.

Father Schneider was very popular with the little tots whom he frequently visited.

## EFFORT BEING MADE TO FORM MILITARY COMP'Y

Unless present plans miscarry, Portsmouth will soon boast of another military company, one that will reflect creditably upon the city and command the respect wherever it may be detailed. Authority has been given Captain James W. Smith to recruit the company and perfect all arrangements, and he plans to call a meeting of all young men who are interested for an evening early next week. At this meeting the proposition will be explained fully to them, and those who meet the requirements will be asked to sign the master roll.

Business and industrial interests of the city are behind the movement to establish a company here, and they will give it every encouragement possible. The value of a military company to a city has been often marked, and Portsmouth is no exception. With the organization of a company, a movement will be started to secure the \$20,000 state aid to be used in the construction of an armory. To this amount will be added a similar amount, to be raised by popular subscription, and an auditorium will be provided that will be suitable for all purposes.

## MORE CHEERFUL FEELING PREVAILING

Cleveland, O., April 23—The Iron Trade Review today says: "The announcement of the Pennsylvania and the Pennsylvania Lines West that \$485,000,000 would be spent in new equipment has been the most encouraging event of the past week, eclipsing even the news in regard to orders for war materials and for lathes to be used by American manufacturers who have taken orders for projectiles. The appearance of the Northwestern railroad with an inquiry for 2,000 cars and the development of some other railroad business has added to the more cheerful feeling prevailing.

Low prices of Lake Superior ore which prevailed last year and in 1912 have been fixed for this year by sales of about 700,000 tons at those figures. Pig iron shows more activity in Philadelphia and Chicago districts, but is quiet elsewhere.

## The Movies

Jess Willard at Arcana Theatre Today

One of the biggest motion picture features ever shown in the city will be Champion Jess Willard, in "His Heart Punch," which will be reproduced at the Arcana Theatre this afternoon and night. The new heavy-weight champion who wrestled the crown from Jack Johnson, is in the eyes of many Americans, the greatest hero of the age. He will be shown in a four-round bout, the sequel of which is a human interest story—in a fight that means everything to his interesting family. The big fellow will also be featured in training stunts, while he is getting himself in readiness for the battle that won for him the crown of champion of the world. The pictures are clear and distinct, and no doubt the Arcana will be filled at every performance. Manager Potts secured this big attraction at a heavy expense, going on the theory that there was nothing too good for Arcana patrons. He has decided to make the admission for the matinee performance 5 cents for children and 10 cents for adults. At night, however, the admission will be 10 cents to everybody. In addition to the Willard pictures Manager Potts will show an additional reel, a picture that will be in keeping with the high class performance that are being shown daily at the Arcana. Women and children are especially invited to attend the shows.

Paramount "The Love Route" Columbia Today

The Paramount feature today at the Columbia is "The Love Route," a beautiful story in four reels by the Famous Players featuring Harold Lockwood and Winifred Kingston, two of the most popular picture stars in Portsmouth.

You will all remember Miss Kingston for her wonderful work with Dustin Farnum in "Cameo Kirby."

This picture today is the story of the building of a railroad in Southwest. Allene Huston (Miss Kingston), is the owner of a large tract of land through which the new railroad is to pass. She refused to sell or even grant a right-of-way through this land. She finally meets the young civil engineer (Harold Lockwood). It is a case of love at first sight. The right of way is granted and the road is constructed and is known as the "Love Route."

This is a truly great picture, abounding with many interesting situations and set amid most beautiful wild scenery to Arizona.

Anita Stewart at Lyric Today

"In 'From Headquarters' "Hell hath no fury like a woman scorned!" Driven to the point of desperation when her employer-lover, to whom she had given all that a woman holds dear, casts her off for another girl, Rose Peters slaps him. Her father is an officer of the law, stern, almost enlashed; and when he discovers upon investigation—that his own daughter is the guilty one, he realizes for the first time the tremendous impulses which sometimes prompt a person to commit a crime. That does not interfere with his sense of duty, however, and he is about to arrest the girl—when—from Headquarters comes the word to drop further investigation. What was the reason? This afternoon and evening at the Lyric theatre you will learn the cause for this edict. Earle Williams and Anita Stewart are in the lands, and the restraint of our curiosity will be well repaid by these peerless players. "Killed Against Orders," the special feature tomorrow, is another wholesome, "uplifting" story that you should not miss seeing.

## THE CROWN OF GLORY

Drawn by Eva Shepherd

Copyright, 1915, by Herbert Ponting

"Night bent down to kiss her fair young cheek, and lost its gloom in the waved tresses of her hair."

Mysterious and shadowy as a midsummer's eve, electric as a fastly clouding sky, filled with the endless dreams of endless summer, fragrant with the breath of a rose-scented wind, man's gaze travels from the promise on her lips, past the sunlight dancing in her eyes, and dwelling on her crown of midnight hair, fingers content.

"Fair tresses man's imperial race ensnare,"

"And beauty draws us with a single hair!"

## RAIN WORTH HUNDREDS OF THOUSANDS TO FARMERS

Scioto county farmers and Ohio Valley farmers in general are happy over the splendid rains that prevailed Thursday which was general in this vicinity. The rainfall here was .91 of an inch according to Weather Observer Dr. Harry Schirrmann. Lucasville, Wheelersburg, Sciotoville, Fullerton, Dry Run, Rushtown and Friendship report heavy rains Thursday, which did a world of good to growing crops. "I actually believe that the rain was worth several hundred thousands of dollars to farmers in this vicinity," said E. Strimatter of the Grimes-Strimatter company, Friday.

"I learned this morning that the rain extended all the way up the valley to Columbus and there is no way of really estimating its real worth to farmers between Portsmouth and Columbus, but I believe soaking showers were worth several hundred thousand dollars to corn growers and farmers in general in this vicinity." Corn planting will now be the big thing with bottom land farmers. The glorious showers of Thursday were just what they had been praying for and scenes of activity will now be enacted in the fertile fields of Scioto county.

## UNITED STATES TROOPS PRACTICE WAR GAME AT SAN DIEGO

Top to bottom: Charge by First Cavalry and Fourth U. S. Marines; Fighting in Trenches; First U. S. Cavalry in Action.

Visitors at the San Diego exposition last week witnessed thrilling sights as American soldiers and marines practiced the war game. There were charges and counter-charges by cavalry and infantry and determined fighting from the trenches. The pictures were taken while the mimic battle was in progress.
